Pioneers of the painted kitchen

SINCE 1972

John Lewis
OF HUNGERFORD

Our soft pink shade Blossom adds just the right amount of colour to this kitchen to add interest, whilst keeping the overall scheme calm. The Beverston cupboard in the centre is finished in Slip and Cocoa.

-------------------------------------	----

FOUNDED ON PASSION

Our timeless kitchens start with you. Inspired by your tastes, your needs, and your personal desire to create a beautiful space that complements your home perfectly. It's been our purpose since we began in 1972.

Our founder has always believed that something special happens when you combine great design with a genuine understanding of what a customer really wants. The result? Ordinary rooms transformed into busy family hubs or stunning dining centerpieces. Unique spaces designed to encourage conviviality and togetherness. Kitchens imbued with a real sense of place and purpose.

From your first meeting with your designer in one of our showrooms, to putting the finishing touches to your dream kitchen, we are here to share our expertise, guide and encourage you, and craft every detail exactly as you want it. We love to share our passion for what we do along every step of your journey.

We select everything we use to create your kitchen with great care. And only source timber and materials that comply with the highest sustainability standards. Look at our painted furniture and it's easy to forget it started life in a forest!

"I've been creating things out of wood since I was five, and made a kitchen for my mother when I was just twelve. After that I was hooked! My interest grew over the years, until one cold, wet day I arrived in Hungerford to start my business. I was nervous, but also so excited to share my ideas with my customers. The passion and enthusiasm I felt then is still as strong today. And it's something that permeates throughout our entire team – from our highly skilled artisan craftsmen in our Oxfordshire workshop, to our experienced and knowledgeable designers across the country."

JOHN LEWIS FOUNDER

THE LOVE OF COLOUR

We are obsessed with colour! We love how it can convey your very own style and personality, and of course, how it can be applied in a beautiful yet practical way to your kitchen cupboards. That is why we have developed our own award-winning, hard-wearing paint formula. In keeping with our pioneering tradition, we were one of the first in the industry to paint kitchen cupboards.

Our carefully curated colour palette offers a delightful choice of tone and hue – applied with a hand sprayed finish that adds character and warmth, which will continue to look fantastic for many years to come. Our painted furniture is what we like to call 'life-proof'. After over forty-five years of creating timeless, bespoke kitchens we understand fully the importance of beauty in the home, but also the need for durability. So our paint is designed to not only look exquisite but also to be highly resilient in the face of those unavoidable everyday knocks.

From the Original Aristan's intricate raised mouldings, to the mid-century inspired, solid blocks of Pure – whatever statement you choose, we are here to help you make it.

THOUGHTFULLY CREATED

We believe the journey to your perfect kitchen should be simple, seamless and enjoyable. Our role is to guide and inspire you to reach the right decisions for you and your home. Whatever the shape of the room, and whatever your storage, family or lifestyle needs, we are here to help you discover what is possible, and then create it.

Our free design service plays a crucial part in creating a kitchen tailored to your exact requirements. We present our ideas to you over a cup of coffee – so you can take your time and relax as you view our designer's sketches and artistic boards. This is also your chance to get to know your designer, work closely with them, and talk through what matters to you most.

Every piece of our handmade furniture exudes John Lewis of Hungerford's distinctive character, lines and form. Along with our renowned established style, we continue to refine our collection in collaboration with our customers, and in tune with contemporary preferences. Our designers will help you to create any pieces that are tailored specifically to you and your space. All our kitchens are a thing of beauty: designed for today, made for life.

SKILFULLY CRAFTED

Run your hands over any part of our elegant kitchens and you will sense the time and craftsmanship involved in their creation. This attention to detail also extends across our other versatile storage options, statement pieces and precision-made furniture.

We believe superb installation is essential to finishing your project to the very highest standards. We are proud to be the first national kitchen retailer to have achieved membership of the British Institute of Kitchen, Bedroom & Bathroom Installers (BiKBBI). It means all our installers are independently accredited as working to the highest industry standards, and can complete all aspects of your installation if required, including gas and electrical services.

All our exquisite kitchen and wardrobe collections come with a 10-year product and workmanship guarantee when installed by our experienced team. And when your installation is complete, your designer will ensure you are totally happy with your new furniture. We will then return a year later to check how your kitchen has settled, and deal with any minor issues that may have arisen as you start using your new space.

SHAKER

Making it personal

A UNIQUE HOUSE THAT STRONGLY
REFLECTS THE CUSTOMER'S
PERSONALITY AND THE CITY IN WHICH
SHE LIVES. THIS HOMEOWNER HAD A
VERY CLEAR IDEA FROM THE OUTSET
THAT A DISTINCTIVE SPLASH OF
COLOUR WAS NEEDED – ACHIEVED
BY SOURCING TILES FROM SPAIN AND
CHOOSING LOCAL ARTIST ALEX LUCAS
TO COMPLEMENT THE SPACE WITH A
STUNNING, ORIGINAL MURAL.

The kitchen cabinetry is in our Shaker lay-on style finished in Cobalt Satin, with a central island which features a low level bookshelf along one side. The bright yellow chosen by our client provides the perfect accent colour, being beautifully picked up in the fish scale tiling and the Muuto pendant light fittings.

The artist whose peacock adorns one of the walls has a penchant for flowers and birds. Many of Alex's quirky, colourful designs can be seen across Bristol. In fact her own house features several bright murals.

This space is a wonderful example of how collaborating with John Lewis of Hungerford designers really can help you express your personality and individual style.

PURE

Tailoring to fit

AN AMAZING CONVERTED BARN WITH
FABULOUS VIEWS OF THE ROLLING
COUNTRYSIDE. FOLLOWING MAJOR
STRUCTURAL CHANGES OUR TASK WAS
TO CAREFULLY SCRIBE IN ALL THE
CABINETS AND WORK SURFACES – A JOB
FOR ONLY THE MOST TALENTED FITTERS!
THE RESULT IS A MODERN KITCHEN
THAT’S THE PERFECT COUNTERBALANCE
TO THIS HOME’S RUSTIC BEAMS.

This kitchen is integral to the whole living space with a spiral staircase leading from the cooking area to a snug above. The Quartz Stone and Walnut combination blends superbly with the mix of rough and smooth surfaces found in the fabric of the building. Rebated LED lighting gives halo and task lighting both above and below the sleek shelving. Nothing disturbs the vista across this room, as even the extractor solution in the hob is a downdraft, concealed type.

SHAKER IN-FRAME

Creating a social space

THIS THOROUGHLY WELL-DRESSED KITCHEN WAS THE RESULT OF A LONG PLANNING PROCESS. THE OWNERS HAD MANY CHALLENGES TO OVERCOME WITH THE BUILDING BUT KNEW THAT WHEN FINISHED IT HAD TO HAVE THE ‘WOW FACTOR’! THE CONTEMPORARY AESTHETIC IS ACHIEVED BY USING SHAKER WITHOUT WALL CUPBOARDS.

JOHN LEWIS OF HUNGERFORD INSPIRED BY YOU • CRAFTED BY US

Not just a great place for entertaining but a beautiful one too, with the pared back use of Shaker doors achieving a modern look and effortless elegance. A real case of 'less is more'.

Designing the kitchen as a social space has truly made this room the heart of our client's home, providing the perfect place for guests to sit and chat with the owners whilst a delicious meal is created. The substantial island has become the centre point of the new open-plan space, allowing an unobstructed view of the cosy dining and seating area on the other side.

Glorious natural light that floods in from outside is also a key part of this interior; as the room opens directly into the garden. It is a bright space with a lovely airy feel and is sure to help people within it feel uplifted.

SHAKER

Enduring & timeless

THESE OWNERS HAD THE VISION FOR
A CHIC KITCHEN WITH A BISTRO-STYLE
– AND DRIVING THE WHOLE DESIGN
WAS THEIR LOVE OF MARBLE. NOW IT'S
LIVED IN SO IS SHOWING SOME SIGNS
OF USE, THE ODD MARK LEFT BY WINE
AND LEMONS, BUT THEY KNOW IT CAN
ALWAYS BE RE-POLISHED ...OR THEY
MIGHT JUST CHOOSE TO LEAVE IT AS
A REMINDER OF GOOD TIMES!

Their architect's plan to create a kitchen and living area within a new extension space was something this couple loved from the get-go. Once the building project was complete, our challenge was to provide a design solution which bridged the gap between classic and contemporary, to complement the original feel of this Edwardian era home.

The owners were very specific with their brief, in that they wanted a Shaker style kitchen with Carrera marble worktops and modern, built-in appliances. The family also requested a large island with a breakfast bar, along with a spacious pantry cupboard. After ticking these points off the wish list, we focused on making a real feature of the hob by situating it over wide drawers, then framing the area with a beautiful feature canopy above.

ARTISAN

Everything in its place

THE MOMENT THESE CUSTOMERS
VISITED OUR SHOWROOM THEY FELL
IN LOVE WITH OUR GLORIOUS
PERSIAN GREEN COLOUR. A KEY PART
OF THEIR BRIEF, AND INSPIRATION,
WAS AN ORIGINAL DRESSER. THEY
WANTED TO COMBINE THE ESSENCE
OF ITS MUCH-LOVED STYLE WITH NEW
CABINETS TO CREATE A SIMILAR FEEL
ACROSS AN ENTIRE WALL OF THEIR
NEW KITCHEN.

Here in Penarth, we have combined one of our stunning worktop mounted cabinets with a mixture of glazed and open wall cupboards. This provides an abundance of storage space whilst creating a beautiful feature wall that's just perfect for displaying favourite pieces.

The pierced Artisan doors sit perfectly next to an Everhot range cooker for the traditional look that this property demands.

The primary colour choice of Cardoon gives a crisp, sharp contrast to the white worktops.

SHAKER

Improving family life

IN THIS HOME OF A GROWING FAMILY OF FOUR, THE BRIEF WAS TO AVOID THE IMPERSONAL FEEL THAT CAN COME WITH BRAND NEW FURNITURE. INSTEAD THE HARD-WORKING KITCHEN NEEDED TO CONJURE UP A WARM AND COSY ATMOSPHERE WITH CLEVER BENCH SEATING THAT COULD LITERALLY KEEP THE KIDS AND FRIENDS IN LINE!

This London client's kitchen is a great example of beautiful, modern Shaker styling. Cool grey painted cabinets are teamed with textured granite worktops and glossy brick wall tiles. Our custom-made bench seating has a simple V-groove backboard and handy soft-close drawer storage. The client's choice of soft furnishings complete this subtle palette of off-white and muted greys.

Planning the perfect kitchen requires keeping a good balance between fulfilling storage needs, maximising worktop prep space and creating an overall beautiful aesthetic. This project achieves all three.

The island adds more valuable storage and is topped with a honed Flash Blue granite – proving that functional and practical can also look fabulous.

PURE

Refreshing heritage

STYLISH REMODELLING, CLEVER
USE OF COLOUR AND NATURAL
LIGHT GIVE THIS VICTORIAN HOME
A NEW LEASE OF LIFE. OUR PURE
CABINETRY WAS A KEY PART OF THE
CONTEMPORARY SCHEME AND THE
AIM OF ENHANCING FAMILY LIFE IN
THEIR TERRACED HOME IN
HIGHBURY, NORTH LONDON,

Being sensitive to the heritage of a home always adds real magic to a new kitchen. Here, the finished space is modern and open, but ultimately very respectful to the original country features.

Shifting from a previously sprawling kitchen with a central dining table, the client longed to clearly separate the dining and cooking areas in this stunning listed town house. By creating a focal island, which is both a social hub and a prepping station, it allowed the dining area to be comfortably detached – while adding endless extra functionality.

Our classic options

CLASSIC

Shaker kitchens

Shaker kitchen cabinetry in Easy White and Birch. The classic double butler sink is complemented by an elegant bridge mixer tap with porcelain handles. This kitchen is finished with worktops crafted from Bianca Eclipsa Quartzite and Oak.

Colour matched to our client's own selection of colours, this beautiful Victorian semi-detached house in Wandsworth required a family friendly open space, with a contemporary feel.

Lay-on Shaker, chrome handles and pale quartz worktops were the perfect solution. It was important to keep the area as bright as possible, so lightly marbled quartz allows a darker design statement to be made on the island.

Optimum decluttering has been achieved by using wide drawer storage, a larder featuring internal Oak drawers and a spice rack.

Another clever use of bespoke Shaker style, here we have created a chic utility area in this awkward under-stairs space, making it ideal for storing the Hoover, mops and essential cleaning equipment.

We designed this area using the same methods as our fitted wardrobes, where every bit of room is fully utilised.

Shaker lay-on style cabinetry in Blake Blue with contrasting and elegantly simple 44mm Encore worktops. A white, double bowl, Lansdowne ceramic sink with wooden drainer completes the look and chunky oak, floating shelves work along side a limited number of wall cabinets.

An elegant in-frame Shaker kitchen with a stunning island as the centerpiece. The tall sleek cupboards with eye-level, integrated appliances are finished in Cocoa and all remaining cabinetry in Biscuit. A set of Easymaid Stools sit under the overhanging worksurface and a Belfast Sink gives an additional touch of nostalgia.

CLASSIC Artisan kitchens

A mixture of lay-on and in-frame components with tongue and groove end panels give this kitchen its authentic appeal. The detail in the bevelled door panel sets it apart from a simpler Shaker style, and allows a flat or distressed paint finish to be applied.

The splashback and worktops are Terra Bianca. The concealed extractor hood is housed in a unique John Lewis of Hungerford Birthday Canopy.

The tall larder unit and wide plate shelf complete the Original Artisan feel.

A good kitchen design is all in the detail. As well as considering deep drawers for storing pans and plates, you will need smaller spaces that help to keep all your kitchen items in good order. Our narrow spice drawers are ideal for herbs and spices, but are also the perfect size and shape for storing cling film, foil and cooking utensils.

CLASSIC

Crème de la crème

Our classic English Rose inspired kitchen, here in piano gloss Sugar Almond Cream with red quartz worktop. Styled here with a fresh citrus palette, the Alabaster option is shown below.

Our contemporary ranges

CONTEMPORARY Pure kitchens

Earl Grey painted, handleless Pure combined with a Neolith worktop. The island feature takes the much deeper Blake Blue and applies it under a marbled quartz surface, partnered with solid Walnut. The blue is echoed in the back-painted glass splashback and an Elica cooker hood adds a little sculptural drama.

Gullwing doors are a great option on our Pure range. They function effortlessly, simply opening up and away.

Ultimate simplicity and elegance in this kitchen which is finished in our Pure White satin eggshell paint. Clean cabinetry lines paired with soft marbling in the Neolith splashback create a calm and serene combination.

Here, the Karbon tap mirrors the angle of the gull-wing door on our Pure handleless cabinet. It's the kind of precise detail that absolutely matters to John Lewis of Hungerford. Over the Pure island below is a suspended Elica Belle extractor.

CONTEMPORARY
Urban kitchens

In-frame urban doors with our skinny handles. The sink area has the added luxury of a Quooker Fusion square boiling water tap. Deep drawers can be accessorised to suit a whole array of uses, as shown here with a clever pegboard style crockery divider:

Our worktop-mounted larders are both practical and beautiful, providing a wealth of easily accessible storage whilst maintaining a sleek line with everything neatly behind closed doors. Here they are teamed with white quartz and a single bowl, inset ceramic sink.

Utility

ROOMS

Utility rooms are first and foremost about creating a practical space for laundry appliances and overspill storage from the kitchen. They don't have to feel like an afterthought so can be equally as stylish as your main kitchen.

If space allows, a dedicated laundry room is a wonderful asset. We offer tall cabinets (in any of our door types) for ironing boards and to hideaway the mop and bucket, plus all those everyday cleaning items.

Hand made, floor-standing Somerset wicker baskets can hold clothes awaiting ironing and our smooth Maple shelves are just ready to accept that beautifully ironed shirt – our installer can add as many shelves as you need.

Our furniture collections

FREE STANDING
Worktables & islands

Our classically designed and built standalone furniture pieces complement both traditional and contemporary interiors and are available in any of our satin paint finishes. They are an ideal way of creating a less built-in look and adding new colour to a scheme.

Our worktables are real classics, wonderful to look at and great to use! We make them in three sizes; one, two and three drawer. In addition to the oiled Maple, Oak and Walnut tops, the single and double drawer models are available with antiqued Marble worktops. They can be integrated into islands, set into long runs or simply placed as stand-alone pieces.

ARTISAN

Tables & chairs

Hand finished in our workshop, these chairs and stools can be painted in any of our satin eggshell or antiqued & distressed colours. The Classic Three Leg stool was created after our founder discovered a stool which had been originally made in Cornwall. Over the years we have improved the construction whilst retaining their original look.

We have also been making tables for over twenty years. They can be made square, rectangular or round – in virtually any size! The tops are made from individual boards in the traditional way and the mortice and tenon joints are dowelled for strength.

FREE STANDING

Dressers & larders

Our freestanding dressers and larders are beautifully made to order and they are painted throughout in any of our satin eggshell or antiqued & distressed finishes.

They are a great way to provide essential extra storage in the kitchen and can be customised to provide exactly the right combination of space that you need.

NOSTALGIC Fridges & pantries

The pantry continues to be on top of the nostalgic kitchen wish list. The interior can be adapted to your needs including a marble 'cold' shelf, solid oak drawers, door mounted spice storage and more.

There are two styles you can choose from. The Cool Pantry features flat doors with vents and can be finished in either gloss or satin eggshell. The Shaker Pantry has Uber Patisserie handles and slim chromium plated hinges and is available in any of our satin eggshell colours.

Additionally, sockets and lighting can be added so that small appliances can be used, creating a functional workspace.

With inspiration drawn from old ice-boxes, early refrigerators and ice cream parlour interiors, our range of cool fridges is unique. Each model is available in our gloss colours or any of our satin eggshell finishes and they are specially built to house Neff appliances. Beautiful heavily chromium plated hinges and handles are specially made for this range.

PAINT

Experts in colour

As the original specialists in painted, handmade kitchens and furniture, we have developed an exclusive selection of colours for almost every scheme you can think of. From traditional Clotted Cream to our deepest blues and greys, our distinctive paint palette complements all of our beautiful furniture styles perfectly.

Choose Satin Eggshell for a stylish, soft finish or select from our palette of 14 High Gloss colours for a hand-polished finish and exquisite depth of colour.

Or you may prefer our specialist Rubbed and Antiqued finishes. All are durable, and easy to clean and care for. Our paint has won awards and is the toughest in the business. It is the best independently tested paint you can get from any British kitchen company.

PAINT

Curating colour

If you cannot find the exact colour you really want for your new kitchen or furniture, don't worry. We offer a great bespoke colour matching service. Your paint is then formulated to our exacting standards with all the same durability you expect, but in your very own colour.

We are always on the lookout for new colours and shades to make choosing your paint even more exciting. Classic or contemporary, new or a time-honoured favourite, you are sure to find the right shade to suit.

You can also make a real statement with bold colours on individual pieces of furniture, or within our glazed cabinets. Contrast light and dark, blend different shades, or add a splash of vibrancy. With our huge existing range and our colour matching service, it's easy to bring the right colours into the heart of your home.

ACCESSORIES

Finishing touches

Sometimes a room works better with a table rather than an island, adding a Neolith Iron copper worktop and splashback might bring some warmth to an austere space, or a cup handle in polished chrome could give just the right accent. In all instances like these our designers can help with the precise level of detail that will make a huge difference to your final kitchen.

We also have a wealth of knowledge of appliances on the market, so can assist with everything from under-counter wine coolers to American style fridge freezers.

Wardrobe

COLLECTION

92

In celebration of more than 40 years crafting and fitting furniture into our customers' homes, we have developed a range of beautifully designed, practical, fitted and free standing bedroom furniture.

Our expert bedroom sales designers will work with you in your home to ensure that all your needs are met. Each piece of bedroom furniture is created individually by skilled artisans in our Oxfordshire workshop.

Every stunning bedroom is built around you to ensure it is an investment in both your home and quality of life. Of course our fitted bedrooms are, like our kitchens, beautiful, highly functional and expertly fitted into your home. All our bedrooms are available in a range of door styles and in your choice of colour from our wide colour palette.

Delivering our promises

QUALITY WORKMANSHIP

Top quality construction is vital to our ongoing success. That's why we take such great care when building each cabinet. We use a combination of traditional and modern techniques and select only materials best suited to making each part. That way you always get furniture that's built to last. We make the painted elements of our cabinets from special moisture-resistant Medite board. It's the perfect partner for our fantastic paint. Medite board is extremely stable, and won't warp or twist, so the paint never cracks and the smooth finish remains for many years to come. In our framed cabinetry this also provides a sturdy fixing point for our traditional butt hinges – an extremely strong construction technique. Our handmade, dovetail jointed drawer boxes, available in your choice of solid oak or walnut, run smoothly on fully extending soft close systems.

DETAILS MATTER

Our wall cabinets allow space for full size dinner plates, and are super-deep to provide versatile storage. We inset magnets on our in-frame furniture to keep doors closed square, while the 180° opening, fully adjustable hinges ensure the best possible cupboard access, with soft close every time. All our hinge and drawer fittings are guaranteed for ten years as standard and this is extended to a lifetime guarantee for any Blum components. Our paint has won awards and is the toughest in the business. It is the best independently tested paint you can get from any British kitchen company. We offer a large choice of paint colours, and we continually develop our palette to keep up with today's interior trends. If you have your own colour in mind we can match to any colours you like. Our

durable water-based paint has a satin-smooth texture that is easy to clean even in the busiest of homes. Our hand-painted gloss finish is built up using multiple layers to create a luxurious depth of hue that's extremely tough, and outshines any plastic coated alternatives.

PASSION FOR DESIGN

Creating a new kitchen involves careful thought and time to consider the myriad of choices available. We are passionate about design excellence and will ensure your kitchen is beautiful, a pleasure to live and work in, and a valuable asset to your home. Our designers will work closely with you to understand exactly how you envisage your dream kitchen, and gain an appreciation of how you want to cook and use your new room. By distilling our 45 years of kitchen layout and product design experience we are able to interpret your likes and dislikes, consider your inspiration carefully, and then guide you through the many fabulous choices available from our portfolio.

CAREFUL CONSULTATION

Our designers are highly enthusiastic about exploring different colours and textures to create a kitchen that meets your unique needs. Your designer will work with you on the comfort, look and functionality of your new kitchen, and advise on paint finishes too. Wherever your colour ideas come from, we can help realise your vision and advise you on the best pieces of fitted and freestanding furniture to complete your project. To be inspired by our artisan workmanship, just pop into one of our showrooms for a chat and take a look at our portfolio. You will discover inspirational displays, our photography album which showcases some of our

recent customer projects, and then have the design and consultation process explained – you will then have a clearer idea of time frames and budgets. Your project will be managed by the same designer from start to finish – from initial design consultation, to installation and sign off of your completed project. So you can be assured you will only deal with one highly knowledgeable and experienced person throughout.

IMPECCABLE INSTALLATION

We understand having a new kitchen fitted causes upheaval in your home. We also believe thoughtful installation is vital to finishing your kitchen to the highest of standards. As the first national kitchen retailer to have achieved membership of the British Institute of Kitchen, Bedroom and Bathroom Installers (BiKBBI), you can be assured our installers work to the highest industry standards, and with the minimum of fuss. Their workmanship conforms to all current legislation and is guaranteed for ten years. They are experts in all areas of installation, including gas and electrical services. And when installation is complete, your designer will be in touch to ensure you are completely happy. With John Lewis of Hungerford, you are in good hands from the moment you step through the door.

YOUR FIRST ANNIVERSARY

We want you to be totally satisfied with your stunning new kitchen and, after the first year of use, your kitchen will have settled in nicely. A year on from installation is the perfect time to pay you a quick visit to ensure everything is working as it should be. We will inspect your furniture thoroughly, check door alignments, hinges, work surface joints, leg adjustments, and any water

connections and sealants. Although we are confident everything will be just fine, this check makes certain your furniture will continue to perform as well as it did the day we finished installing it.

ONLINE GALLERY

Many customers return to buy single items of freestanding furniture. Buying a special larder, dresser or even a pair of stools can be a little complex due to the wide array of colours, woods and door styles we offer. That is why we are always on hand in our showrooms to help you make the right choices. You can also view a selection of our most popular furniture and colours on our website.

COLOUR MATTERS

All the colours shown in this brochure are for guide purposes only. For an accurate representation of your chosen paint we strongly advise you to visit one of our showrooms. That way we can give you a freshly painted swatch to help you hone your colour choices. We strive to provide a 99% colour match to the showroom produced swatch, but please remember every paint batch we create is unique!

To provide our customers with peace of mind and to demonstrate our commitment to responsible retailing, John Lewis of Hungerford plc is a registered full member of The Furniture Ombudsman. The Furniture Ombudsman is an independent not-for-profit organisation which raises standards and is approved by the government to provide alternative dispute resolution services. We follow their Code of Practice which provides our customers with additional protection. www.thefurnitureombudsman.org 0845 653 2064.
